

EXPERT SERIES SOFTENERS

## Addressing your water needs with the highest level of care

You may not be thinking about the water used during your daily routines, but over time, hardness minerals can make a big impact on your home and families. Calcium build up on your fixtures, dishes, and inside your appliances can effect both their beauty and performance. Hard water will also increase soap scum and dry out your skin and hair.

Our A. O. Smith® Expert water softener line uses the latest technology and features available to provide your entire home with softened, high quality water today's modern homes need. Its high capacity resin media can handle even the toughest hardness situations effectively and efficiently. With the innovative chlorine generator as a standard addition to the system, any A. O. Smith Expert series model will create its own chlorine to ensure the your equipment stays clean with every regeneration.

Paired with our patented Water Efficient Technology® or Wripli® options, the A. O. Smith Expert water softeners can offer the top of the line equipment available on the market today. All of our equipment is designed to be environmentally-friendly while safeguarding your household plumbing, appliances, skin, hair, and laundry.

### Efficiency is in the details.

Water Efficient Technology (W.E.T.) is a breakthrough in water treatment. W.E.T. is a series of patented features designed to reduce the amount of water and salt used.

- Saves Water
- Reduces Salt Used  
*(Save up to 50% during regenerations)*

Wripli® is the most advanced WiFi technology in water treatment today.

- Alerts Notifications
- Vacation Mode  
*(Access system from anywhere)*
